ANSWERS TO VENDOR QUESTIONS FOR BURKE RFP #103 PHSL (3/24/25)

1. Implementing an onsite pharmacy is a business operation review and in order to assess volume, drug mix, and estimated cost and value of onsite pharmacy, we are requesting a full review of your utilization that was prescribed to your population in the past 12 months to clearly assess the opportunity.

   To clearly understand the expected outcome of the RFP request:

   Is your RFP for onsite pharmacy request for **all claims**, to include, general revenue, third party payors, and PAP medication management for fully integrated system?

   As stated in the RFP, this contract will be for those individuals at Burke who choose to access the onsite retail pharmacy. This could mean Burke pay, third party payers, or self-pay. RFP does not encompass PAP medication program at Burke.

2. Will general revenue funded prescriptions be filled by onsite pharmacy? In reference to 1.c, states "Provision of pharmaceutical services for Burke paid prescriptions as determined by Burke" so, would like to confirm that general revenue claims and other third-party payors would be processed at onsite pharmacy?

   General revenue, or "Burke Pay "prescriptions will be requested on an as needed basis and approved only by a facility Service Director prior to fill for payment billing processing.

3. Data file of utilization; this can be requested by your current pharmacy provider:

   Unique member identifier to count unique patients

   Funding Source (General Revenue(uninsured), Medicaid, Medicare, private insurance, etc.)

   *Order Date or Dispense Date

   *Drug Name/ Medication Name

   *GPI and/or NDC drug code (GPI is more than likely what is accessible in EHR, The Generic Product Identifier (GPI) is a 14-character hierarchical classification that identifies drugs from the primary therapeutic use down to the unique interchangeable product regardless of manufacturer or package size; NDC is a specific drug code dispensed)

   *Total Dispensed (Quantity)

   *Days' Supply

   *Refills Authorized

   *Location Code – This is important to assess "pharmacy sites"; if you have additional rural distribution locations, we will do a full assessment as a whole, then break it out to the locations to assess utilization from each site. If unable to provide this field, we would assess it as 1 location volume. i.e. Lufkin, Waxahachie, SUD, etc.

   In addition**, if the above is unable to be provided,** utilizing your EMR system, any claim that was submitted to your onsite provider or multiple providers in past 12 months: a full utilization file of actual dispensed medication to include location and other payor sources, Medicaid, Medicare, etc.

   Claim level extract:

   Unique identifier for a claim

   Unique Member ID or masked ID, provides ability to assess claims/member and member utilizers

   Dispensed/Requested date: Ability to attach pricing as of date of service

   NDC or GPI: Allows us to do a match on the dispensed product to attach pricing metrics or cost alternative options

   Drug description

   Qty dispensed

Days' supply

# of Refills authorized

The extent of information to be provided is attached.

4. How many total active patients are currently eligible for services, regardless of payor source?

    See Burke website for further information on Burke demographic.

5. What percentage of your dispensed medications go to your onsite provider?

    This information is not being provided.

6. How many patients are uninsured?

    This information is not being provided.

7. How many patients are Medicaid?

    This information is not being provided.

8. Can you provide most commonly utilized Medicaid MCO plans?

    This information is not being provided.

9. How many patients are Medicare?

    This information is not being provided.

10. Can you provide most commonly utilized Medicare Part D plans?

    This information is not being provided.

11. How many patients are Private Insurance?

    This information is not being provided.

12. Does your current onsite provider assist with medical PAs? If so, how many have been conducted by current pharmacy

    Provider in past 12 months? What is the average per month the pharmacy provider assists with?

    No. Further information is not being provided

13. How many LAI and vaccines are being administered by current pharmacy provider?

    Refer to Question # 32 on this document and the prescription information provided.

14. Please provide pictures of actual pharmacy space.

    This information is not being provided.

15. What date is anticipated for having an onsite tour of pharmacy space(s) for vendor respondents?

    This should be arranged in advance by contacting Jennifer Collins.

16. It is stated that the service begins September 1; is Sept 1 the anticipation of start of contract or the start of the buildout,

    licensing, contracting for the onsite pharmacy? Please note that establishing/takeover of a new pharmacy site could take 3-5

    months to be fully contracted with all third party payors, depending on external authority approving applications and contracts.

    September 1 is the start date to provide services under this contract

17. If a new onsite pharmacy vendor is selected, does the center have a plan for patient services during the new buildout?

    If not, is center seeking options to ensure minimal disruption with work around plans?

    This information is not being provided.

18. How does the center currently handle credit/rebill of general revenue claims? **EX:** A patient may not disclose they have third party insurance and so the patient is eligible for general revenue, later center finds third party insurance on a client, does the current provider credit/rebill those claims to the appropriate payor source and credit the center back the charges?

The Center attempts to verify insurance at each client visit. Burke pay approval and invoicing requests for medications are carefully scrutinized to prevent any unnecessary payments to pharmacy by Burke. The Center appreciates any efforts to return payment to the Center in this event.

19. RE: Q 1.t; how many shipping locations would be receiving mail prescriptions? Do these locations currently receive prescriptions by mail from onsite pharmacy provider?

No, Burke does not receive mail ordered medication prescriptions at our outlying locations directly from retail pharmacy. Mail outs are sent directly to the client's home via Fed Ex. There may be occasions when pharmacy may provide their own courier /medications between their 2 retail pharmacies to accommodate a specific pharmacy and client need. This is a pharmacy decision and Burke does not oversee that process.

20. For PAP medications, our onsite pharmacy provider services has an integrated system to include PAP inventory and management, will PAP medications be stored/dispensed at the onsite pharmacy?

This contract does not include PAP medication management.

21. Is center currently having PAP medications shipped direct to pharmacy from manufacturer for processing of the

N/A

22. What are your common stock medications currently being requested/utilized?

Refer to data provided.

23. How many patients currently are utilizing blister packaging?

Refer to original questions and percentages provided.

24. How many patients would be estimated to receive injections?

Refer to Data provided.

25. What are the most commonly requested LAIs?

A sampling: Abilify Maintenna, Aristada, Uzedy, Invega Sustenna, Invega Trinza

26. What is the average daily volume of claims and patients of each location that are processed at the onsite pharmacy?

Refer to data provided.

27. Does your clinic(s) currently receive any Medication Administration Record(MARs)?

No

28. What specialty medications are currently dispensed and provided by onsite pharmacy?

Refer to data provided.

29. "Maintain Bi-Directional Interface with Burke's Electronic Health Record for E-Scripts for Burke clients (E.H.R. –Clinical system)". Is this request to have ability to exchange an eligible patient data file or ability to accept e-script from clinic? If not, can you provide more details of the systems you are requesting pharmacy to connect to?

The ability to accept e-script from clinic.

30. Is **question 1.p** referring to medical prior authorizations or pharmacy benefit authorizations?

Both

31. Please provide detailed explanation of how your current process is with applying and monitoring and tracking of PAP applications and inventory. Does center utilize a PAP management system/software? If so, who is the vendor software?

N/A

32. Does current pharmacy provider participate in your P&T committee? If so, how often does P&T committee meet?

Not at this time. N/A.

33. Out of the 13,247 prescriptions transcribed to the current contracted pharmacy, how many long-acting injections were prescribed in a given period?

Of those prescriptions in Burke's database, 689 Long-Acting Antipsychotic injections *were transmitted* to the retail pharmacy.

Refer to data provided.

34. Is Burke currently using another contract for long-acting injectable medications?

Answer: To clarify: Burke is the name of our regional mental health center encompassing an 11-county area. We currently utilize the retail pharmacy for ordering Long-Acting Antipsychotic Injections for those persons with a payor source/ insured individual. Individuals who require PAP and are uninsured are served under a different pharmacy.

BELOW IS A LIST OF MEDICACTAIONS THAT BURKE TRANSMISSTED TO THE PHARMACY
(From February 2024-December 2024 and January 2025)
